PROFESSIONAL EXPERIENCES

01.2023 – 01.2024
Bois-Colombes

BABILOU FAMILY (LBO)
Data & BI Manager
- I am the point of contact for functional issues relating to the use of Data for all the Group's business and support departments and subsidiaries, and I lead an international community of Data players.
- Ensure the day-to-day operational management of the B2C-Data team
- Coordinate the Group's Data projects and produce quarterly reports on the Data field
- Ensuring the implementation of the Group's Data policy and supporting subsidiaries in the development of data governance
- Supporting business lines and project managers in mastering data throughout its lifecycle, and organising the cross-functionality, pooling and sharing of data within the company in order to improve the knowledge and performance of internal processes.
- Identify the BI needs of the 12 countries: communicate on a case-by-case basis with the heads of the various departments....
- Developing BI solutions using Qlick in different business contexts.

09.2021 – 12.2022
Paris, France
